

We are going to Empty this Store Out, completely

"You can't do it." That's what we were told by the head of a big eastern department store. But we will do it. We know we can. We know we have a legitimate reason for this sale. We know we have over a hundred and fifty thousand dollars worth of the most representative merchandise ever offered the buying public in this whole section of the country. We know we are going to reduce it so low in price that every customer will remark of the big values to his or her friends. And thus advertise us in the one best of all ways. We know that a great volume of merchandise will be bought daily in Clarksburg.

And we know that when it becomes broadly known that we are selling the best merchandise at the lowest prices--people will come here to buy. We're going to empty this enormous high grade stock at top speed. Of course, there is thousands of dollars worth of brand new fall and winter merchandise rushing in here daily. Already this new stock is most complete.

And we can truthfully say that one dollar put to work here during this 10 days rebuilding and removal sale will return you the reward of two.

*....if people are satisfied with ordinary "sale merchandise" they will waste their time coming here,
for we have none of it*
